Gainesville Daily Sun.

VOL. XXVI, NO. 93 GAINESVILLE, FLORIDA, TUESDAY, JUNE 1, 1909 TEN CENTS A WEEK

REPUBLICAN LEADERS UNEASY OVER INCOME TAX

So Greatly Are They Alarmed That They Are Considering Question of Tax on Dividends.

WASHINGTON, May 31.—If the Senate were to vote today on the question of an income tax it would be added to the tariff bill. This fact was made known a few days ago to the President by Senators Aldrich and Crane, who are greatly disturbed over the situation, although they still hope to induce enough of the progressive Republicans to abandon the idea. It will require three more votes than the leaders can command to send the income tax amendment to the Judiciary Committee, which is the plan proposed by the Republican organization for burying the proposition for this session and probably for such as they control the Senate. The chief objection to an income tax is that it will undermine the protective policy. The amendments proposed by Senators Bailey and Cummins respectively would raise a revenue approximating $70,000,000 a year. So much revenue raised by direct taxation would necessitate the lowering of many of the duties and the extreme protectionists are appalled at such a prospect. On the other hand, they would not dare collect so much from incomes and then gather into the treasury the full amount of revenue which the present bill would produce because that would seriously menace the prosperity of the country and encourage an era of extravagance even exceeding that of the last few years.

So greatly are the Republican leaders alarmed at the situation in the Senate that they are seriously considering offering the Taft proposition of a tax on the dividends of corporations as a substitute for the income tax amendment. The former would raise a revenue, it is estimated, of about $20,000,000 and thus obviate to a considerable extent the necessity of lowering the duties all along the line. The Republicans believe that in this way they may be able to head off the income tax advocates. Possibly they can. It remains to be seen.

The oft-repeated question, "What is a Democrat?" seems likely to be presented in a new form and any man who listens to the tariff debate in the Senate for a few hours may well ask himself "Am I a Democrat?" Senator McEnnery of Louisiana has just been telling the Senate that the old Democratic doctrine of free raw materials, of tariff for revenue only, etc., is all nonsense and has been begging his party colleagues to vote with him for the highest possible duty on sugar. Senator Bailey says that the pledge in the Democratic platform to repeal the duty on lumber is unwarranted and un-Democratic, and Senator Stone of Missouri says Mr. Bryan has no right to criticise those Democrats who voted for a duty on iron ore as the "free raw material doctrine has been exploded." Senator Clay of Georgia, on the other hand, says that the duty on sugar is an outrage, that it makes only for increased profits to the sugar trust and that it imposes great additional burden on the consumer. One need not be in the condition of the member of the House who first propounded the historic question, "Where am I at?" to become confused regarding his party allegiance after listening to these Democratic statesmen for a few hours, and then when he hears Senator Bristow protesting vigorously against the high protective duties which the Republicans are seeking to impose, hears a majority of the Democrats vote to retain the duty on lumber, and learns that President Taft is begging his party colleagues to impose lower duties and "revise the tariff downward" he will indeed be a wise partisan if he can determine to what political camp he belongs.

The President has struck terror to the hearts of many members of the administration who have long relied solely on political influence to retain them in office. He practically demanded the resignation of S. N. D. North, Director of the Census, and has appointed E. Dana Durand, now Deputy Commissioner of Corporations, in his place. Mr. North had behind him no less powerful politicians than Senators Aldrich, Lodge, Crane and Hale and Representative Crumpacker, Olcott and others, to say nothing of Speaker Cannon. When, just a month ago, it was learned that Mr. North was under investigation his powerful political friends rushed to the White House and told the President "it would never do to drop North." The President said nothing in reply and they came away convinced that they had accomplished their end. Mr. North himself said that the friction was "a thing of the past" and now, as from a clear sky, comes his resignation and the appointment of his successor. Mr. Durand, who succeeds North, has no political influence but is known to be a statistican of exceptional ability and an executive officer of great force and ability.

The President is having considerable difficulty finding the right man to send as Minister to China. He has begged John Hays Hammond to accept it but Mr. Hammond has declined. He wants a shrewd, keen business man, not a diplomat, for the place. Rumor has it that William Nelson Cromwell is under consideration. He was but it was found that his confirmation would be opposed in the Senate and it is doubtful if the President will turn to him again.

GEORGIA RAILROAD STRIKE CALLED OFF

TRAIN SERVICE HAS REACHED NORMAL CONDITIONS.

The Employment of Negro Firemen Still the Bone of Contention Suggestion for Settlement.

ATLANTA, Ga., May 30.—The following statement has been issued with reference to a settlement of the strike on the Georgia Railroad:

"To the Public: An amicable adjustment of the differences between the Georgia Railroad and its employes who have been on strike has been reached on a basis entirely satisfactory to both sides.

"The strike has been called off and complete train service is to be resumed immediately.

"MARTIN A. KNAPP,
"CHAS. P. NEILL."

ATLANTA, May 31.—Officials of the Georgia Railroad and of the Brotherhood of Firemen spent nearly the entire day yesterday in conference over the points in the strike agreement which remained to be settled. Commissioner Neill, Chairman Knapp and Second Assistant Postmaster-General Stewart were present. It seems very likely that the disputed questions will have to go to the board of arbitration finally, under the Erdman act.

The big stumbling block in the path of settlement is the retention of the negro firemen in any capacity. There is no doubt that all other points will be adjusted by the contending parties without arbitration.

There are several reasons why the race question is so important. The Georgia Railroad is considered a home institution. It employes Georgia men only. Its firemen and engineers and conductors and even its brakemen are all natives of towns and villages through which its trains run. These men have intermarried until nearly whole communities are related.

A Question of Blood Ties.

One engineer told Commissioner Neill that there was not a town on his run between Atlanta and Augusta in which he did not have blood relatives. Many of the men come from old and highly respected families and the idea of working with a negro is abhorrent to them. It is repulsive to their relatives, too, and to this feeling is attributed the strong stand taken by entire communities against the railroad.

Should the negroes win in the final settlement of the dispute, many believe that there will be strong sentiment created against permitting the negroes to continue at work. This feeling does not exist so strongly in the larger cities such as Atlanta and Augusta, and it is possible that if the railroad insists upon keeping some of its older black employes and will consent to work them only in the yards of the cities named that the problem will be solved.

The conference will be resumed today and will be continued until an agreement is reached or it is left to arbitration. Meantime train service on the Georgia Railroad has reached normal conditions, except in the freight department, and the officials say that today noon all freight trains will be movingg on the old schedules.

Party Visit Ocala.

H. E. Taylor, A. M. Cushman, Geo. I. Doig and Mr. Candleberry formed a party that visited Ocala on Sunday. They made the trip through the country in two handsome Mitchell cars of Messrs. Taylor and Doig and report having had a very pleasant time traveling in this manner. They took their own good time and were able to view the large farms and picturesque scenes along the roadway.

THIRTY-TWO MEET DEATH FROM TORNADO IN TEXAS

Storm Was Only Three Hundred Yards Wide---Children Were Blown Miles Away.

BROWNWOOD, TEX., May 31.—A tornado of great fury struck the little village of Zephyr, in the eastern portion of Brown county, at 1 o'clock Sunday morning and left a path of death and destruction seldom paralleled. The death list has reached a total of thirty-two and the number of seriously and fatally wounded will reach fifty.

The dead:

T. T. Cabler, county attorney of Brownwood.

Mrs. T. T. Cabler and two children, 18 years old, and infant, of Brownwood.

Mrs. Artie Hart, 37 years old, and son, Robert, 6 years old, of Zephyr.

Miss Gertie Hustone, 25 Zephyr.

Gibbs Cloyce, 2 years old, son of Prof. Cloyce, Zephyr.

Oscar Ware, 45, Zephyr, and two sons, Harry and Frank.

W. G. Simmons, wife and two children, Miss Bertie, 24 and West, 12, Zephyr.

B. F. Brown and wife, Zephyr.

W. A. Ramsey, 50, and son, Ollie, 13, Zephyr.

C. M. Carter, 40, and wife, 35, a son, Glover, 12, and 3-year-old infant, Zephyr.

Capt. Collins, 30, Zephyr.

Ruby Campbell, 3, Zephyr.

Rodney Campbell, infant, Zephyr.

These latter the children of Mrs. Bob Campbell.

Many others, to a total of seventy-four, have minor hurts.

The storm formed half a mile southwest of Zephyr and swept down upon the village, cutting a wide swath directly through the residence and business district.

Nearly fifty houses were entirely demolished. Lightning struck a lumber yard and started a conflagration which destroyed one entire business block. No effort was made to fight the fire, as the care of the dead and wounded victims demanded all attention.

A section hand rode a hand-car to Brownwood and spread the alarm.

In two hours the Santa Fe railroad was speeding a special train to the scene of the storm with nine surgeons and a score of Brownwood physicians.

Hundreds of persons directly in the storm's path saved themselves by taking refuge in storm cellars. More than a dozen bodies were horribly mutilated.

County Clerk Thad Cabler, his wife and two children, who had gone to Zephyr to spend the night, were killed. The big stone school building and two churches were swept from the face of the earth. By daylight sixteen surgeons were working on the wounded.

Brownwood hurried her second relief thain at noon yesterday loaded with provisions, clothing and necessary articles and forty nurses.

Last night three persons were still unaccounted for. Two children were found dead late in the afternoon two miles out from the town, having been blown that distance.

A special train left Zephyr last night for Temple, carrying the more seriously injured to the hospital.

Storm Had Narrow Path.

The storm was 300 yards wide and swept the earth for only a short distance, probably less than a mile. Its fury is considered the most terrific of any tornado ever experienced in this section.

J. I. Clingman, C. E. Kirkpatrick and nine surgeons, who formed the first party out of Brownwood, found a desolate scene awaiting them.

The hillsides at Zephyr were covered with debris of all kinds and bodies of deal animals and human beings. The ruins were dimly lighted by the burning buildings and the cries of the wounded rose above the sound of the elements, which threatened a second storm. A hog roaming through the debris-strewn streets was killed while attempting to devour the body of an infant. Bodies were found twisted about trees and in every conceivable spot. People walked the streets almost naked, crying for their loved ones. Residences which escaped the storm were turned into hospitals, where were carried the bodies of the dead and wounded.

One house collapsed on a family of nine without serious injury to any.

Brownwood, with splendid organized relief work, has the situation well in hand.

Legislature Enters Upon Last Week of Session

TALLAHASSEE, May 31.—The passage of the Jacksonville charter bill in the House of Representatives Saturday, after one of the most spectacular fights in the history of the Florida Legislature, proved the main topic of discussion, and hotel lobbies in the State capital presented unusual scenes of liveliness throughout yesterday.

The House refused to reconsider action on the charter bill today by a vote of 32 to 31, and the bill was then certified to the Senate.

Five more days of the session of 1909 remain, and all are apparently anxiously awaiting the ending of a strenuous sixty days of work.

It is believed that very little legislation will be enacted during the five remaining days, as both houses, as has been customary at past sessions, will devote attention to the bill providing for salaries and expenses of the State government for the last six months of 1909, for the year 1910 and for the first six months of 1911, the revenue bill, tax levy bill and pay bill. The Senate will also have to tussle with the occupational tax bill. It is necessary that attention be given these bills, and the major portion of the five days will be devoted thus.

To date there have been introduced 761 House bills and 505 Senate bills, as against approximately 600 House and something less than 500 Senate bills during the entire 1907 session.

Comparatively few bills affecting the State as a whole have passed, most of those passing being of a local character.

A resolution, so it is understood, will be introduced in both houses today, providing for adjournment of the 1909 session at noon Friday.

For many sessions up to last sessions adjournment at noon was the custom. Last session, however, the

(Continued on Page Two.)

Widow of Late H. B. Plant Died Sunday in New York

NEY YORK, May 31.—Mrs. Margaret J. Plant-Graves, widow of Henry B. Plant, founder of the system of railroad, steamships and hotels in the South, died here yesterday from arterio-solerosis. She had been ill for more than a year.

Mr. Plant died in 1899 and Mrs. Plant married Robert Graves in 1904. There was a contest over the Plant will, which the widow finally won, and by her death she leaves a fortune estimated at $8,000,000. Her husband and two nephews survive her. Mrs. Plant was well-known for her charitable work. One of her chief donations to this city is the Margaret J. Plant pavilion at St. Luke's Hospital, which cost $500,000. She gave liberally to the Catholic church of which she was a member.

DESTRUCTIVE FIRE OCCURS AT ARCHER

BAUKNIGHT STORE BURNED WITH ENTIRE CONTENTS.

Fire Discovered About 2 A. M. and All of Middle of House Was in Flames.

The store building and its entire contents belonging to C. W. Bauknight at Archer was destroyed by fire at an early hour Monday morning, the loss being about $8,000, with only partial insurance.

The fire is supposed to have been the work of someone, for when it was first discovered the entire center of the main building was enveloped in flames and it was an impossibility to save anything from the ruins.

J. E. Wells, the book-keeper, who rooms overhead the building, in one corner, is said to have barely escaped and saved only his trunk, which contained very little of his wearing apparel, but he did not have sufficient time to get anything together after being awakened by the blaze, which spread rapidly.

From the very quick manner in which the building burned it was very evident that it had been well saturated with oil to get it started, and must have been done about 1:30, but it was nearer 2 o'clock before anyone knew of the flames, and before very many of the citizens could be gotten together it was a mass of ruins.

This business was among the oldest of Archer and Mr. Bauknight had only a few years since constructed a large and commodious store building which he kept filled with all kinds of merchandise, always buying in large quantities.

It has not been learned the exact amount of insurance carried, or whether he intends rebuilding, but being such an old-established business it is thought that he will commence the work of another building within a very short while.

Fortunately the many large shade trees protected the fire from spreading to other sections of the town, and the large Hodgson building, only a very few feet west of the structure burned, was saved in this manner.

THE EAGLES' MINSTRELS.

Very Creditable Performance Rendered by Ocala Talent at Baird.

The minstrel performance rendered last night at the New Baird under the auspices of the Ocala Eagles was a very creditable exhibition.

This is the second appearance of the boys, and the fact that they have had but few full rehearsals shows that they understand their business when it comes to putting on a good attraction.

The grand first-part showed up well and the voices of all the singers were good, while the end men were well selected and "got off" some local hits that caused much laughter.

The olio was along the line of the general home talent aggregation and all members of the company, and the Ocala Aerie, should be proud of the manner in which they put up the show.

Miss Ethel Haycraft, one of Ocala's most popular and talented musicians, performed on the piano and her selections delighted the audience.

To attest the popularity of the boys a large number of ladies and visitors came up with the crowd, and they secured a special car to convey them to Waldo last night to connect with No. 9, and returned home.

Notwithstanding the hot weather the performance was greeted by a good house.

Sometimes you may be told that there are other things just as good as DeWitt's Kidney and Bladder Pills. That's not so. Nothing made is as good as DeWitt's Kidney and Bladder Pills for any ailments of the kidney and bladder, which always result in weak back, backache, rheumatic pains, rheumatism and urinary disorders. A trial of DeWitt's Kidney and Bladder Pills is sufficient to convince you how good they are. Send your name to E. C. DeWitt & Co., Chicago, for a free trial box. They are sold here by all druggists.

The awake person reads the want ads. every day—and answers some almost as often.

LEGISLATURE ENTERS UPON LAST WEEK OF SESSION

(Continued from Page One.)

Legislature adjourned at 8 p. m.

In the Senate on Saturday the passage of the Humphries State prison farm bill and the killing of the bill by Mr. McCreary for county uniformity of school text-books were the principal measures disposed of. The McCreary school book bill was lost by a vote of 14 to 11.

There was considerable discussion during this morning's session, and as a result there was not so large a number passed. Five bills passed and two killed was the crop for the day.

Realty Transfers.

The following real estate changes have been recorded during the past few days:

Annie L. Smith to J. L. Wolfenden and others, trustees; A. J. Fletcher to J. E. Williams; N. L. Fletcher to A. J. Fletcher; B. R. Colson and J. H. Colson to Flora A. Mathews; Francis M. Cellon to W. R. Thomas; Mina D. Downing to Kate Dell Jones; W. R. Thomas to W. A. Todd; C. W. Chase to J. W. Jones; Frank Adams to J. A. J. Strickland; United States to W. F. Jones; United States to J. E. Williams; J. T. Price to Ned Robinson; F. B. Rawls to L. B. Rawls; S. M. Blitch to W. J. Lock; F. W. Butler to C. H. Brown; T. J. Swearingen to Amos Haines; Tony Harold to J. D. Stringfellow; B. R. Colson to J. H. Hodges; R. T. Hulbert to J. T. Jones and Charlie Harris.

Men Past Fifty in Danger.

Men past middle life have found comfort and relief in Foley's Kidney Remedy, especially for enlarged prostate gland, which is very common among elderly men. L. E. Morris, Dexter, Ky., writes: "Up to a year ago my father suffered from kidney and bladder trouble and several physicians pronounced it enlargement of the prostate gland and advised an operation. On account of his age we were afraid he could not stand it and I recommended Foley's Kidney Remedy, and the first bottle relieved him, and after taking the second bottle he was no longer troubled with this complaint." J. W. McCollum & Co.

Some article that is simply "in the way" at your house might, if advertised, be sold to someone who is anxiously looking for it.

Isn't there something which only a want ad. can do for you today?

WILSON ARRESTED ON SERIOUS CHARGE

WILL PROBABLY BE GIVEN PRELIMINARY HEARING HERE.

Owing to Illness of Justice Dyess of Campville, Rochelle Official Was Summoned in the Matter.

Geo. Jones, a negro sent up from Green Cove Springs for carrying concealed weapons, died at the Campville camps on last Saturday, and L. F. Willson, the "whipping boss," has been arrested charged with being the cause of his death.

J. A. Roberts, justice for the Rochelle district, was called to preside over the inquest and after the jury had heard the evidence they rendered a verdict that death was due to the licks administered by Wilson and the justice came here Monday and had a warrant issued.

Owing to the sickness of B. F. Dyess, the justice of the Campville district, Justice Roberts was called to act in his place.

"FAT" AND "LEAN" GAME.

To Be Played for Benefit of Oak Hall Ball Club Thursday.

Manager Davis announces the first game for fandom to take place on next Thursday and says it will be a "lolly pop"—if you know what that is.

He needs some of the "wherewith" to pay for the handsome new uniforms he has just ordered for the boys and has selected Postmaster L. C. Lynch as captain of the "Fat" aggregation and Dr. J. M. Dell as captain for the "Leans" to pull off a stunt that will be both amusing and interesting and afford more real amusement than a dozen first-class games could possibly do, hence he wants the attendance of everyone in the city at the opening performance.

Postmaster Lynch has already began using liniment and will "train down" to be in proper condition to meet his brother "Leans" on Thursday afternoon promptly at 3:30, when the great match will be played.

Dr. Dell, who by the way has not forgotten the way the "Leans" had it "popped to 'em" in the last game, has gone to work selecting the best players among the "slims" in the city, and he states that when the "seldomfeds" line-up Thursday there will be a different story to tell.

Poor Milk

Is often thought to be responsible for an infant's loss in weight or general poor health. The cause usually is that the child has worms. They get the nourishment of the food and the baby starves, actually starves. White's Cream Vermifuge expels the worms and nourishes the child, sure and safe. Price 25 cents. Sold by W. M. Johnson.

Card From Prisoner.

Mrs. Bailey visited the jail on Sunday evening and gave to the prisoners a nice ice cream supper. It was very much appreciated by all. We do hope God will bless her for her kindness.

A PRISONER. (Col.)

Cheap Rates Over A. C. L.

On account of the reunion of the Confederate soldiers at Ocala the A. C. L. railway have put on a cheap rate of 85 cents for the round trip to that place today and Wednesday, June 1 and 2.

"Suffered day and night the torment of itching piles. Nothing helped me until I used Doan's Ointment. It cured me permanently."—Hon. John R. Garrett, Mayor, Girard, Ala.

Sun "Want" ads. brag results.

S.S.S. CURES BLOOD POISON

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S. S. S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S. S. S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S. S. S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S. S. S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S. S. S. has thoroughly purified the circulation no trace of the disease is left. S. S. S., a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers, tested and proven for more than forty years. Home treatment book and any medical advice free to all who write.

EACH DAY INTEREST INCREASES IN CONTEST

OUTSIDE VOTING EQUAL TO THE GAINESVILLE SECTION.

An Average of Fifty Letters Received Each Day by the Contest Department.

Interest was never so keen in this section of Florida in any contest as that which is now experienced in the great Co-Operative Contest being conducted by this paper and various business concerns, and the mail that is received from outside sections will easily average 50 letters daily, all containing votes and clubs for Alachua county's luminary.

Miss Goode makes another gain over Miss Evans, Miss Lucinda Bryant jumps to second place from the eighth in the Western section, with all candidates polling a large vote.

Following is the standing of the candidates as a result of the count yesterday:

Gainesville—Central Section.

Miss Addie Goode	1,219,725
Miss Jessie Evans	1,158,375
Miss Margaret Ledbetter	360,650
Miss Estelle Beal	340,205
Miss Bessie Carver	99,390
Miss Gertrude Harrod	39,580
Miss Blanche Thompson	26,020
Miss Nora Stalls	52,205
Miss Myra Swearingen	20,090
Miss Aura M. Lewis	18,395
Miss Mary Fernandez	10,230

One of the Essentials

of the happy homes of to-day is a vast fund of information as to the best methods of promoting health and happiness and right living and knowledge of the world's best products.

Products of actual excellence and reasonable claims truthfully presented and which have attained to world-wide acceptance through the approval of the Well-Informed of the World; not of individuals only, but of the many who have the happy faculty of selecting and obtaining the best the world affords.

One of the products of that class, of known component parts, an Ethical remedy, approved by physicians and commended by the Well-Informed of the World as a valuable and wholesome family laxative is the well-known Syrup of Figs and Elixir of Senna. To get its beneficial effects always buy the genuine, manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

TO DELIVER DIRECTORY.

Burtz Leaves for Palatka With Handsome Book of Information.

Jesse E. Burtz, who has been busy for the past few months compiling and publishing the business directory of Palatka, has now received his book from the printer and left yesterday for the Gem City City to place it in the hands of the advertisers and the general public at that place.

It is replete with valuable information covering the city of Palatka and shows a very handsome and substantial gain made in that place during the past few years in both business and population. It is a credit to the publisher and the city which it represents.

Pleasant Picnic Party.

A pleasant picnic party of young ladies from Rochelle passed through here yesterday to spend the day at Worthington Springs, the party being chaperoned by Mrs. Jones. Among those in the party were Misses Maude, Annie and Sadie Coulter, Belma and Mattine Jennings, besides others whose names we did not learn.

Many of our citizens are drifting towards bright's disease by neglecting symptoms of kidney and bladder trouble which Foley's Kidney Remedy will quickly cure. J. W. McCollum & Co.

MEMORIAL DAY WAS FITTINGLY OBSERVED

G. A. R. COMRADES PRESENT TO PAY THEIR RESPECTS.

Other Organizations Affiliated With Them in Making Event a Grand Success.

The memorial services of the G. A. R. held in this city on Monday proved among the largest and best attended in a number of years and although this body of citizens are fast passing away, the goodly number left were here for the purpose of paying their respects to the ones that have gone before.

The exercises were most impressive and a large number of ladies met at the band stand and accompanied the old soldiers to the cemetery, where the memorial address was delivered by Col. W. E. Baker and the various graves of the war veterans were kindly remembered with an abundant supply of flowers and plants taken there for this special occasion.

The beautiful ritual service was held at the cemetery, followed by prayer and reading of the address of President Lincoln at Gettysburg by Dr. F. P. Bullock, and closed with the sounding of taps and decoration of the graves, all of the other organizations taking part in these exercises.

Col. A. P. Morrow was master of cermonies, while Col. I. E. Webster had charge of the musical program.

You Never Can Tell

Just exactly the cause of your rheumatism, but you know you have it. Do you know that Ballard's Snow Liniment will cure it?—relieve the pain, reduce the swelling and limber the joints and muscles so that you will be as active and well as you ever were. Price 25c, 50c and $1.00. Sold by W. M. Johnson.

Makes Away With Cash.

J. C. Bellamy, who operates a barber shop at Rochelle, was the victim of a thief who entered his place on Saturday night and got away with all of his cash. The amount was the proceeds of his business for several days and he has some suspicion as to who the guilty party was, but up to the present time no arrest has been made.

A SQUARE DEAL AND A SQUARE MEAL

Here's a square deal for the people who can't eat a square meal without after pain and distress.

Go to J. W. McCollum & Co's. today and get a box of Mi-o-na tablets; the great prescription for indigestion and stomach troubles.

Take one, or if your suffering is intense, two tablets with or after meal; and at the end of 10 days if you can't eat a square meal without distress go to J. W. McCollum & Co's. and get your money back.

That's where the square deal comes in.

But Mi-o-na is really a stomach upbuilder of great merit; every day the makers receive more than a dozen letters from grateful people which state that after they had lost all hope Mi-o-na cured.

The quick and positive action of Mi-o-na on the stomach in cure of gas water-brash, sour stomach and heartburn is worth a lot of money to any sufferer.

Why not try Mi-o-na at J. W. McCollum & Co's. risk. Fifty cents buys a large box.

E. D. Howe, Gardner, Mass., says: "I suffered from severe pains in my stomach. I tried different remedies without relief; after using two boxes of Mi-o-na I found myself completely cured."

Mi-o-na is sold by leading druggists everywhere.

HYOMEI

(PRONOUNCED HIGH-O-ME)

Cures catarrh or money back. Just breathe it in. Complete outfit, including inhaler, $1. Extra bottles 50c. Druggists.

FOLEY'S HONEY AND TAR

for children; safe, sure. No opiates

Better Not Get Dyspepsia

If you can help it. Kodol prevents Dyspepsia, by effectually helping Nature to Relieve Indigestion. But don't trifle with Indigestion.

A great many people who have trifled with indigestion, have been sorry for it—when nervous or chronic dyspepsia resulted, and they have not been able to cure it.

Use Kodol and prevent having Dyspepsia.

Everyone is subject to indigestion. Stomach derangement follows stomach abuse, just as naturally and just as surely as a sound and healthy stomach results upon the taking of Kodol.

When you experience sourness of stomach, belching of gas and nauseating fluid, bloated sensation, gnawing pain in the pit of the stomach, heart burn (so-called), diarrhoea, headaches, dullness or chronic tired feeling—you need Kodol. And then the quicker you take Kodol—the better. Eat what you want, let Kodol digest it.

Ordinary pepsin "dyspepsia tablets," physics, etc., are not likely to be of much benefit to you, in digestive ailments. Pepsin is only a partial digester—and physics are not digesters at all.

Kodol is a perfect digester. If you could see Kodol digesting every particle of food, of all kinds, in the glass test-tubes in our laboratories, you would know this just as well as we do.

Nature and Kodol will always cure a sick stomach—but in order to be cured, the stomach must rest. That is what Kodol does—rests the stomach, while the stomach gets well. Just as simple as A, B, C.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2½ times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

THE COMMITTEE'S REPORT.

The committee appointed by the Legislature to visit the various State educational institutions and the State rifle range and arsenal, which was composed of two members of the Senate, Senators Crill and D. H. Baker, and four members of the House, Representatives Page, McKenzie, Terrell and Durrance, has submitted an exhaustive report to that body, with recommendations. That part of the report concerning the University of Florida is as follows:

"Your committee visited the University of Florida, at Gainesville, on May 12 and 13, 1909. We were met at the train by a delegation of the citizens of Gainesville and escorted to the White House, where we spent the night. Early the next morning carriages were placed at our disposal, and with the delegation of citizens we proceeded to the University. Here we met President Sledd and his able body of teachers.

"Although it is only about three years since the University was permanently located at Gainesville, there is an air of contentment and pride that we had hardly expected to find, and it was a pleasure to the committee to observe this; it augurs well for the success of the University. There certainly is no better place in all this Southland, and none laid with broader lines than the University of Florida, and it is only a question of time when our people will with one accord point with pride to their great University.

"The main building is known as Thomas Hall, and it is a brick and concrete structure, three stories in height, and three hundred feet by sixty feet wide. It contains lecture rooms, laboratory, library, assembly hall, dining hall and offices of the University.

"The dormitory, known as Buckman Hall, is a brick and concrete structure of the same style of architecture as the main building; it is three stories in height, and two hundred and forty feet long by sixty feet wide.

"The machinery hall is a brick building sixty feet long by thirty feet wide, in which there is some excellent machinery, and where students are instructed in wood and metal work, drawing, etc.

"The grounds are most delightfully situated. The eastern boundary of the grounds, upon which the University is located, is three-quarters of a mile west of the court house at Gainesville.

"The grounds extend one mile west and contain five hundred and twelve (512) acres of land. The campus is located on eighty (80) acres in the northeast corner of this body of land and is easily accessible to the city, with which it is connected by a well-paved street. The rest of the ground is intended to be used for the Experiment Station and a model farm, and is said by a specialist to be admirably adapted to these purposes. Upon this campus a machinery hall and two modern dormitories have been erected. One of the dormitories is now being used for administrative and class room purposes. The site of the University was given free of cost to the State by the citizens of Gainesville, who also donated to the institution forty thousand dollars ($40,000) in cash, besides agreeing to furnish water to all departments of the University free of charge.

"The campus has been laid off and the sites for buildings hereafter to be erected staked out so that a definite and harmonious plan may be carried out. This, in our opinion, constitutes a conspicuous advantage over most institutions of learning, for the reason that the campus is large and buildings can be erected without crowding and with a definite purpose in view.' We have quoted from the Board of Control's report, as it clearly places before you the situation.

"The committee was particularly impressed with the broad and comprehensive plans in the work so far accomplished. The two buildings erected are imposing and are planned with greatest care to meet the needs of the University of Florida, and the broad lines under which the work has begun gives bright promise for the future.

"A careful examination of the class rooms was made and we found that in most instances the rooms and laboratories were well supplied with appliances for the proper instruction of the students.

"The rooms in the dormitories are of good size and most excellently arranged for study and sleeping rooms. Everywhere there were seen evidence of homelike surroundings showing that the students were themselves contented, so that their best efforts could be directed to their studies. Everything was in good order in every department, showing that those in charge were giving their attention to the rooms and surroundings essential to the health of the students.

"The foundation laid for the University of Florida is on broad, and at the same time conservative lines, and this committee was particularly impressed and pleased with everything connected with it.

"We have every reason to believe that, now the University location is settled, a large influx of students will be the result. The State has the boys with ambition and pride in State institutions of learning, especially in the University from which they hope to obtain their degree. Once the people of Florida realize that here we have the best, or as good as the best, it will become the pride of all our citizens, and no longer will our boys go to other States for an education that they can obtain at their own University.

"An administration building as well as other buildings, are necessary, and we feel will be provided at an early date.

"We visited every department of the farm, and each member of the committee can say to you that our inspection of the same impressed us with the fact that here we have a piece of land perfectly adapted for the purpose contemplated by the general government, and it needs only for our people to realize the advantages there to be obtained to fill the school to overflowing. The day of haphazard cultivation of the soil is fast passing away and a careful and intelligent husbandry is taking its place. This does not apply to the cultivation of the soil alone, but to every department of farm industry, from the delicious fruits that should grace our table, to every other product that grows to make up the successful farmer and fruit grower.

"All the members of this committee having had more or less experience in farming, stock raising, fruit growing, and other industries on the farm, would again endeavor to impress upon your mind the importance of the work being done at the Experiment Station farm, and we urge each member of the Legislature to arrange to have the experiment bulletin sent your constituents in such numbers as will disseminate through your county the practical results obtained at the station.

"We feel that a great work is being done here which will redound to the good of the State, if you will put your friends and neighbors in touch with the Experiment Station. We therefore recommend that there be appropriated for the State University and Experiment Station the following: For the biennum beginning July 1, 1909, and ending June 30, 1911, $40,000; campus improvements, $5,000; Farmers' Institute, $15,000; total, $60,000."

The appropriation recommended for the State College for Women at Tallahassee amounts to $82,500, for the following purposes: For current expenses, $70,000; campus improvement, $5,000; sanitarium, $7,500.

For the Florida Agricultural and Mechanical College for Negroes the following appropriation is recommended: Current expenses for two years, $10,000; agricultural building and dairy barn, $10,000; infirmary, $5,000—total, $25,000.

For the Deaf, Dumb and Blind Institute at St. Augustine: Current expenses for two years, $40,000; equipment of new building, $8,900; sanitarium, $7,500.

An appropriation of $10,000 is recommended for equipping the State rifle range.

The news of the settlement of the Georgia Railroad strike was received with pleasure and satisfaction everywhere. For a time it seemed that the differences existing between the railroad and its employes would cause much blood-shed and much disturbance owing to the racial question involved. As it is, much inconvenience and privation was forced upon the people living along the line of the affected road, and it is to be hoped that such differences may be amicably settled in future without the demoralization of business incident to a tie-up of all trains.

Governor Gilchrist has appointed officers of Palm Beach county, recently created by the Legislature from a portion of Dade, as recommended by the Democratic executive committee of the new county. The Governor's preference was that the officers be named through a primary, but since the act creating the county will become effective before two primary elections could be held according to the statutes, he had no alternative other than to follow the recommendations of the committee.

Dr. G. A. Nunnally has resigned the presidency of Columbia College at Lake City and will remove to Rome, Ga., July 1st to accept a chair in Shorter College. Dr. Nunnally was the first and only president Columbia College has ever had and his multitude of Florida friends regret that he has seen fit to sever his relations with the institutions. The resignation has been accepted by the board of trustees.

Some men, however talented and accomplished, never succeed in life while others no better endowed mentally or educationally win success in everything they take hold of. Perhaps the reason lies in the fact that those who fail have no snap while the others have.

The defeat of the Pinellas county bill by the Legislature indicates that that body is not disposed to create more than one new county per session.

$100 Reward, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for testimonials. Address,

THE WIRELESS 'PHONE VISITS GAINESVILLE

LOCATED IN HAYMANS BUILDING FOR TODAY ONLY.

Large Number of Citizens Have Already Seen and Admired Its Many Advantages.

The Collins wireless telephone has been established temporarily in the Haymans building, south side square, and the representative, W. G. Simpson, assisted by D. J. Phillips, are here for the purpose of fully explaining the merits of the new invention.

It is really one of the new wonders placed right here for all to see and inspect, all being allowed the privilege of holding conversation over the 'phones through blank space and walls, and will, in time, become a very important factor in the transmission of messages.

The company are now installing a system of the wireless in Portland, Maine, and they have recently been granted a patent from the U. S. Government on an invention to the phone which will greatly revolutionize the business.

Communication has already been held successfully over this new 'phone between Philadelphia and New York and the company which have engaged in its sale are now preparing for a circuit all around the Atlantic coast.

These gentlemen who are demonstrating the new invention have been in Tampa and Jacksonville and arrived here on Monday, but will leave this afternoon for Pensacola.

To avoid serious results take Foley's Kidney Remedy at the first sign of kidney or bladder disorder such as backache, urinary irregularities, exhaustion, and you will soon be well. Commence taking Foley's Kidney Remedy today. J. W. McCollum & Co.

We Give Votes in Both Contests

Women as Well as Men are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Home of Swamp-Root.

McCALL—LEWIS.

Last Sunday morning at the home of the bride's father in North Gainesville, Mr. G. W. McCall of this city and Miss Maude Lewis were united in marriage, Mr. Nick Baldwin being best man.

After the ceremony the bride and groom departed for High Springs and Jasper, where the groom has relatives. They returned to Alachua yesterday, and will make this city their home.

Miss Lewis was one of the efficient teachers in our high school, and has many friends here who wish her all happiness possible.

Mr. McCall is the popular cashier of the First National Bank of Alachua, and has hosts of good friends all over the county.

The News extends congratulations and best wishes.—Alachua News, 28th.

The Lyceum Course.

Regardless of numerous disappointments and misfortunes, the managers of the Lyceum Course are still hopeful of getting the last number on the course. Mr. Sid Landon, who was to have filled an engagement here last Friday night, will positively appear at the Tabernacle Friday night, June 4th, unless unavoidable circumstances prevent. When you have heard "Happy Sid," as he is called by those who know him, you will say that the last number was the equal of any and was worth waiting a long time for.

"Mr. Landon is an apostle of good cheer, scattering sunshine wherever he goes." "Though not exactly a thing of beauty, he is certainly a joy forever." With wigs and paints he makes up in full view of the audience and there are no monotonous waits. He keeps entertaining his hearers during his rapid make-ups. He has a rich fund of original funny stories which no one can tell as well as he.

As a character impersonator, "Happy Sid" Landon is the peer of anyone on the platform today. See him and hear him and be convinced.

Please do the managers the kindness to tell your friends of this delightful treat. The concensus of opinion is that this has been a most enjoyable and very high-class course. The managers know that the cost has been too high for the patronage. If you have enjoyed the course show your appreciation by helping to get together a good audience for Friday night.

Colds that hang on weaken the constitution and develop into consumption. Foley's Honey and Tar cures persistent coughs that refuse to yield to other treatment. Do not experiment with untried remedies as delay may result in your cold settling on your lungs. J. W. McCollum & Co.

DEMPSEY SECURES BIG OCALA CONTRACT

BUILDING TO BE ERECTED FOR HON. H. L. ANDERSON.

A Store and Office Building Will Replace Present Wood Structure.

S. H. Dempsey has secured the contract from R. L. Anderson of Ocala for the erection of a large new business block to be put up in that city at once.

The plans for this building have been completed for several days, but the contract was not awarded until Friday, when Mr. Dempsey was awarded the work, he being the lowest bidder among a large number of competitors. This building will be two stories in height and will contain besides the stores in the lower floor, office rooms and bachelor apartments in the upper story.

Outside of this large contract, Mr. Dempsey has also received a contract for a $5,000 building in Williston that he will start to work on within a very short while.

He states that during all of his experience in Florida he has never found business so encouraging, and that during the past week he has estimated on over $70,000 worth of building for Gainesville parties alone, and he looks forward to one of the most prosperous building seasons in the history of the State.

LOST TWO HORSES.

Were Stolen From Barn Sometime During the Night.

Sometime during late Saturday night or early Sunday morning some thief entered the stables of R. F. Dupree and stole two fine horses and up to a late hour yesterday he had gained no trace of them.

One of the animals was a rather large bay mare, with a white spot on front right foot, while the other was a very small mare pony and only about five years old.

How they managed to thus gain admittance and get the animals without attracting the attention of someone staying in the house or store, both of which are located in front of his lot, is a mystery.

S. A. L. Early Bird Extension.

J. W. Sanders, the successful Early Bird farmer and stockman, was in the city today and said the S. A. L. railroad had let the contract to extend its line 25 miles south of Early Bird to a place called Felica, in Citrus county.

Mr. Sanders said the contract was let to either Mr. Anderson of Dunnellon, or Mr. Marcus of Bartow, and his object here was to become a subcontractor.

The extension will cross the A. C. L. at Rock Springs and pass along the east side of Blue Run and cross the Withlacoochee at its mouth. This extension will run by all the important phosphate mines in that section. —Ocala Star, 29th.

The Big Head

Is of two kinds—conceit and the big head that comes from a sick headache. Does your head ever feel like a gourd and your brain feel loose and sore? You can cure it in no time by acting on your liver with Ballard's Herbine. Isn't it worth trying for the absolute and certain relief you'll get? Sold by W. M. Johnson.

Isn't there something which only a want ad. can do for you today?

Cheering Lights That Warn and Guide the Mariner.

A BLAZE OF KEROSENE OIL.

The Wonderful Lamps and Lenses That Produce the Brilliant and Far-reaching Flame—Why Electricity is Not Used in Lighthouses.

The girdle of coast which the lighthouse lamps of this country is stirring is a continuous chain of lights completely encircling the United States and possessions and in the case of rivers and inland seas bounding the waters on all sides, so that a ship may never leave the area of a light thrown by one lighthouse before entering the circle of the light of another. As fast as congress will appropriate the money the gaps are being filled.

But what makes the light? When the curious inquirer is told "kerosene" he naturally wonders why his own student lamp does not give a better light if the same oil in the lighthouse sends its beam from five to twenty-five miles.

Various methods of lighting were in use until 1880, when a new system was introduced of employing nearly true paraboloid reflectors and better glass lenses. In some cases these reflectors gave a light which is not surpassed even today except when handled with intelligent care. In 1852, when the present lighthouse board was instituted, the Fresnel system of lenticular glasses was introduced from France and still remains. The first cost is great, but by the saving of oil over the reflector system this is soon reduced. With any reasonable care a fine light always results, and it is impossible for a keeper to maintain a poor light with this apparatus without flagrant disobedience of instructions.

Even with such an apparatus no common lamp can supply the light. First order lamps have five wicks, one inside the other, and are fed with oil by a pump and pipe system. The oil is fed to the wicks so that it reaches the ends where the flame is in the right time and in the right quantity. It is difficult to look at it, so intense is the light. In the lenses rather than in the lamp is the secret, for they pick up and utilize nearly all the rays of light which ordinarily go astray. The Fresnel apparatus collects almost all of this waste light and reflects and refracts it out in one great broad beam of light, parallel to the surface of the sea, where it is needed.

The flames which come from the lamps are largely transparent. So, of course, are all other similar flames. If flames were not transparent there could be no advantage in having one flame inside another and a third inside the first two, etc. The lights from the inner flames could not get out and would do no good.

In some lighthouses, usually for range light purposes, the light is all to be concentrated in one beam. This is done by concentric rings of prisms and a central bullseye and a reflector. Vessels getting such a light in range, either by itself or with another light and running down the beam, are safe from obstructions which may be near by, the range lights or beams of light marking out the channel to be followed.

It is frequently asked of light keepers why electricity is not used in place of mineral oil. An electric light is expensive to install and difficult and expensive to maintain. There is always difficulty in keeping the arc exactly in the focal point of the lenses, the carbons never burning twice alike and constant watching being necessary. Failure to have the light source exactly in the focal point of the lens results in sending the light rays up or down instead of straight out, where they are wanted. Electricity, while superior in penetrative power in a fog, has no advantage over a powerful oil lantern in clear weather. Mineral oil, colza oil or lard oil lights of the first order could be seen a hundred miles were it not for the curvature of the earth, and as long as the light is visible long before the coast is all purposes are served.

It is only within recent years that mineral oil has been in use. Lard oil succeeded colza oil and was used exclusively up to 1886 and with mineral oil up to 1869. Since the latter year mineral oil has been used entirely, except where electricity has been experimented with, or coal or acetylene gas. So far coal oil, for power, efficiency, cleanliness, ease of operation and cheapness, holds its own against all other means of light making.

Electricity, if it can be successfully installed, is the best light, but through expense of maintenance and in the inability to get skilled attendants for such a light for the price set on keepers' services it makes slow headway.

The traveler who cruises up the coasts and who sinks one light before picking up another must know that somewhere in the dark circle is a spot picked for the foundation of a light which will be erected as soon as funds and time allow.—Scientific American.

UNHAPPINESS DISPELLED.

Men and Women Unanimous About It.

Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserable of both sexes, to learn that Newbro's Herpicide has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpicide is a new preparation, made after a new formula on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Without a peer.

What Was the Matter.

E. A. Bothern once told a dilemma he got into:

"I was acting in a comedy when I had to speak the words, 'What's the matter?' Well, one night I was rather slow about taking my cue and was prompted. I forgot myself for the moment, and when the words came, 'What's the matter?' I thought something or other had occurred out of the common. I paused and looked round. Everything seemed normal, and the stage waited. Then came another 'What's the matter?' from the O. P. side. They were all getting anxious behind the scenes, and so was I, for that matter. I looked myself up and down and then scanned my fellow actor, but for the life of me couldn't see anything wrong. At last an audible whisper came: 'Go on with your lines, you idiot! What's the matter with you?' Then it suddenly dawned on me where I was, but the house had tumbled to the situation and came down in convulsions."—Minneapolis Journal.

The Substitution.

It is a well known fact that both Sir Arthur Sullivan and Mr W. S. Gilbert had a horror of the titles of their operas becoming known until the very night of their performance. This fear that they might be forestalled created considerable confusion at the initial production of "Iolanthe; or The Peer and the Peri." The opera was rehearsed for weeks under the title of "Perola." It was only at the dress rehearsal that the company was instructed to substitute the name "Iolanthe" for that of "Perola" wherever it occurred in the text or lyrics. It was no easy task to replace vocally and in the dialogue a name of three syllables for one of four. Sullivan, however, said (maybe aside) to one or two of the actors who were nervous: "Go ahead and sing the music. Gilbert won't be in front" (Gilbert never attended the first night), "so use any name that you think of first if you are rattled. No one in the audience will be any wiser."—Boston Post.

A Corsican Vendetta.

Lecturing on "The Land of the Vendetta" at the Royal Geographical society's headquarters, the Rev. T. T. Norgate said he had discovered instances of a vendetta being started in jest through a pig getting into another man's field, and this had caused the loss of perhaps hundreds of lives and had made two families deadly enemies for upward of 300 years. The men who carried on such a vendetta would scorn to rob any one of a sixpenny piece.—London Globe.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps.

Address Dr. R. V. Pierce, Buffalo, N. Y.

The Middle Horse.

A farmer, plowing with three horses hitched abreast, noticed that the middle horse became tired and exhausted long before either of its mates. As the animal was the equal in every way of the other two, he was puzzled as to the cause of its not being able to stand the same amount of work. He finally observed, however, that as they drew the plow along the three horses held their noses close together, with the result that the middle horse was compelled to breathe the expired air from its fellows. The farmer then procured a long "jockey" stick, which he fastened with straps to the bits of the outside horses. The device worked perfectly, for, given its rightful share of good, fresh air, the middle horse was able to do the same amount of work and with no greater fatigue than its fellows.

Many persons are like the middle horse—they do not get their rightful share of pure air. And this is why they are not able to perform as much work nor of as good a quality as they would otherwise be able to do.—Chicago Tribune.

A Ticklish Moment.

If to act cleverly on the spot is the measure of tact, then the man who figures in the subjoined New York Tribune story deserves both respect and admiration: A woman, driving through New England last summer, noticed suddenly that her horse limped a bit, so when she reached the next village she stopped at the door of the blacksmith shop. A man was holding up the doorpost, and to him she said:

"Will you please tell the blacksmith to come out? I want to see him."

After the manner of the village idler, the man did not stir, but smiled sweetly at the woman and, lifting up his voice, called:

"Bill, come out! There's a lady wants to see you."

From the depths of the blacksmith shop a deeper voice roared:

"Is she young, John, or old?"

In the words of the old poem, "she looked at John and John looked at her." Then, still without moving, he answered:

"You'll be satisfied, Bill, when you get out."

Survival of the Fittest.

Only one oyster embryo out of every 5,000,000 produced grows up through all the successive stages of youth to the adult state. Even in animals which produce a small number of young there is great destruction, and, taking all the individuals into consideration, only a single pair of young arrive at maturity to replace their parents. There is no exception to the rule that every organic being naturally multiplies at so high a rate that if not destroyed the progeny of a single pair would soon cover the earth. The elephant is reckoned the slowest breeder of known animals. It commences to breed at thirty years of age, dies at 100 and has six young in the interval. After 750 years, supposing all the offspring of a single pair fulfilled the rule and were not destroyed in an untimely way, there would be nearly 19,000,000 elephants alive descended from the first pair.—Sir Ray Lankester in London Telegraph.

Why the Judge Paid.

A physician, says a medical journal that vouches for the truth of the story, was once summoned in haste to attend the child of a family that lived in two rooms in the heart of a large American city—not New York. The child had been seized suddenly and seriously and just at election time. The mother was in despair, and when the doubtful prognosis was given she broke into wailing and violent self condemnation for some horrible sin of the family to which she said the child's illness was due—a direct punishment for their crime. She would go and curse the magistrate for it all, her husband should resign from "the force," and such evil ways should be renounced forever.

Curious to know how the magistrate could be held responsible for the child's illness, the doctor finally secured the confession that the crime of the poor, conscience stricken woman consisted in allowing the names of many fraudulent voters to be registered as residing in her house, in swearing to the lie, etc. The magistrate also had demanded this of all the neighbors in return for indescribable political favors.

The child recovered, and the magistrate paid the physician's bill.

A Vital Point

The most delicate part of a baby is it's bowels. Every ailment that it suffers with attacks the bowels also endangering in most cases the life of the infant. McGee's Baby Elixir cures diarrhoea, dysentery and all derangements of the stomach or bowels. Sold by W. M. Johnson.

Tongue Twisters.

Among brief tongue twisters the following are hard to beat: "The sun shines on the top signs;" "She says she shall sew a sheet;" "The sixth sick sheik's sixth sheep's sick." Some of Shakespeare's lines offer pitfalls to the rapid speaker. In "Midsummer Night's Dream" we find, "When lion rough in wildest rage doth roar," and in the same play

Oh, Fates, come, come!
Cut thread and thrum;
Quail, crush, conclude and quell.

ARTICLES OF INCORPORATION OF KRAFT PAPER COMPANY. NOTICE OF INTENTION TO APPLY FOR LETTERS PATENT.

Notice is hereby given that the undersigned intend to apply to the Governor of the State of Florida, at Tallahassee, Florida, for Letters Patent incorporating Kraft Paper Company under the laws of the State of Florida with and under the following proposed charter, the original of which is now on file in the office of the Secretary of the State of Florida.

B. F. WILLIAMSON,
FRANK H. CHASE,
C. D. DENNIS.

Proposed Charter of Kraft Paper Company.

The undersigned hereby associate themselves together for the purpose of becoming incorporated and forming a corporation under and by virtue of the laws of the State of Florida, with and under the following proposed charter:

Article I—The name of this corporation shall be KRAFT PAPER COMPANY, and its principal place of business shall be Gainesville, Alachua county, Florida. That said company may have such branch offices and other places of business in the State of Florida and in other States and in foreign countries as said corporation shall desire.

Article II—The general nature of the business to be transacted by said corporation shall be the making and manufacturing of pulp and paper and other products from pine and other woods, or other raw materials, and the owning, constructing, operating and maintaining manufacturing plants, and the buying, leasing, acquiring, marketing, selling, conveying and disposing of such pulp and paper and other products and goods manufactured from pine and other woods, and also woods, materials and all kinds of products of pulp, paper and similar materials and supplies, and the business of buying, selling and dealing in pulp, paper and other manufactured products from pine and other wood, and like materials, goods and chattels and other property and appurtenances and rights, licenses and privileges pertaining to any and all of the above-mentioned business. And for the purpose aforesaid, to buy, sell, hold, mortgage and lease property, real and personal. To receive payment for capital stock in this company in money or in property, labor or services, at a just valuation thereof to be fixed by the stockholders or Board of Directors. To borrow money and secure the same and moneys otherwise owing by it by mortgages, deeds, bonds, notes or other obligations therefor. To make contracts, of any kind whatsoever, for the furtherance of its purposes and businesses, including agreements or contracts between the said corporation and individuals or other corporations. Also to acquire, own, lease, sell and dispose of all property, real and personal, of every nature and description that may be necessary or proper to the conduct of said business or businesses. To buy, sell, pledge, own or acquire stock or stocks in this or any other corporation, and to do any and all things necessary and proper in and incident to the business or businesses aforesaid, or any of them, and to act as brokers and agents in the conduct of like business for others, and to exercise all rights, powers or privileges now or hereafter conferred by law upon corporations organized under the provisions of the law of the State of Florida, authorizing the formation of this corporation.

Article III—The amount of capital stock of this corporation shall be Two Million Five Hundred Thousand Dollars ($2,500,000), divided into shares of One Hundred Dollars ($100.00) each. All or any of said capital stock of said corporation may be payable in or issued or used for the purpose of property, labor or services at a just valuation thereof, to be fixed by the incorporators or by the Board of Directors at a meeting called for that purpose.

Article IV—The term for which said corporation shall exist shall be ninety-nine (99) years.

Article V.—The officers of said corporation shall be a President, a Vice-President, a Secretary and Treasurer, to be elected by the Board of Directors, and a board of not less than three (3) Directors to be elected by the stockholders. The same person may hold the office of Secretary and Treasurer. Any of the above-named officers may also be elected General Manager by the said Board of Directors.

The officers of the said corporation who shall conduct the business of the corporation until those who shall be elected at the first election shall be qualified are Bailey F. Williamson, President; Frank H. Chase, Vice-President; C. D. Dennis, Secretary and Treasurer, and Bailey F. Williamson, Frank H. Chase and C. D. Dennis as Directors.

Such officers and directors shall be elected on the first Tuesday in February in each year.

Article VI—The highest amount of indebtedness or liability to which said corporation can at any time subject itself is Two Million Dollars ($2,000,000.)

Article VII—The said corporation shall adopt a corporate seal, and may adopt by-laws for the government of its affairs not inconsistent with its articles of incorporation or the laws of the State of Florida, and the said by-laws may be amended or repealed and others adopted from time to time as may be provided in said by-laws.

Article VIII—The names and residences of the incorporators of said corporation and its subscribers to stock ,thereof, with the number of shares of its capital stock subscribed for by each, are as follows:

B. F. Williamson, Gainesville, Fla., 3,000 shares.

Frank H. Chase, Chicago, Ill., 2,100 shares.

C. D. Dennis, Gainesville, Fla., 10 shares.

State of Florida,)
County of Alachua.)

Personally appeared before me B. F. Williamson, Frank H. Chase and C. D. Dennis, to me well-known as the persons who executed the foregoing Articles of Incorporation of the Kraft Paper Company, and who each severally and duly acknowledged that he executed the same for the purposes therein expressed.

In Witness Whereof, I have hereunto set my hand and official seal this 8th day of May, A. D. 1909.

HARVEY P. ROBINSON,
Notary Public State of Florida at large. My commission expires May 18, 1909.

Note: On account of there being another paper house in the State using the name of Florida Paper Company the Secretary of State ordered a change in our name. We have therefore changed the name from Florida Paper Company to Kraft Paper Company and will ask for Letters Pattent under above-mentioned name.

Let a want ad. negotiate a trade for you—of something you don't need for something you do.

NOTICE OF APPLICATION FOR TAX DEED UNDER SECTION 8 OF CHAPTER 4888, LAWS OF FLORIDA.

Notice is hereby given that Walter Yot'ers, purchaser of Tax Certificate No. 63?, dated the 4th day of September, A. D. 1905, has filed said certificate in my office, and has made application for tax deed to issue in accordance with law. Said certificate embraces the following described property situated in Alachua county, Florida, towit:

Com. at ½-mile stake on N line, run S 10 chs, run E 3.19 chs to Nw cor of Mrs. Coles' lot and E 9 chs, S 6.53 chs run 11 deg. W and continue S to edge of Little Orange Lake and back to Nw cor of lot, then run E 7.86 chs, S 3.92 chs and E 2.31 chs and Sw along lake to beginning. Sec. 36, Tp. 10, S. R. 22—13 65-100 acres.

The said land being assessed at the date of the issuance of such certificate in the name of Joseph J. Reed.

Unless said certificate shall be redeemed according to law, tax deed will issue thereon on the 1st day of July, A. D. 1909.

Witness my official signature and seal this the 31st day of May, A. D. 1909.

TWO PIANOS AND A DIAMOND RING

Total Cash Value, $1,000.00

To Be Given Away by the Merchants and The Sun to Citizens of Alachua County!

Each Section Gets Prizes!

Contest to Close August 18, 1909

Realizing that all should share alike in the distribution, leading business houses have joined in the combination to give away Two Handsome Pianos and One Diamond Ring to residents of Alachua county in three different sections. These progressive firms will give One Vote for each penny spent with them.

In the event of a tie for any prize offered, a prize similar in all respects thereto will be given each of those tieing.

THE A. R. HARPER PIANO CO. of Jacksonville, from whom the pianos for this contest were purchased, have agreed to offer extra prizes as follows: To the first five candidates in each district, excepting the winners of the capital prizes in the said districts, one certificate each for $100.00 which will be redeemable in cash as a payment on any piano handled by them—the Everett, Harvard, Dayton or John Church Pianos. In addition to this they will give a certificate good for $25 to all other contestants in the race, and will make special arrangements with anyone to take care of their paper on all purchases of instruments at the cash price.

The Gainesville Section Will embrace the city and suburbs and be confined to a radius of four miles in each direction. The winner in this district will be awarded a HANDSOME DIAMOND RING.

Eastern and Southern Section Will comprise territory from Fairbanks all points east and from Rochelle all points south—Waldo, Hawthorn, Island Grove, Campville, Micanopy, Lake View, Tacoma and all points along line of T. & J. Ry. ONE PIANO.

Western and Northern Section Will comprise all stations from Hague to High Springs, Trenton, Wannee, Wilcox, Bell, Newberry, Jonesville, Archer and all settlements covered by this area. ONE PIANO.

How and Where to Get Votes

The following merchants will give one vote for every cent paid into their establishments for goods which they handle:

Gainesville Furniture Company, Furniture.
Phifer & Morris Co., Clothing and Furnishings.
Gainesville Hardware Co., Plumbing and Hardware.
Mrs. F. T. McCormick, Millinery.
W. M. Johnson, Drugs and Medicines.
L. C. Smith, Shoes and Jewelry.
Mrs. R. Wilson, Dry Goods and Notions.
Saunders & Earle, Groceries and Feed Stuffs.
City Bakery, Bread and Pastry.
P. Y. Smith, Fresh Meats.
Crawford & Davis, Livery and Sale Stables.
The Sun, Printing and Publishing.
The Brown House, Meals and Lodging.
N. Francisco, Banana House, Fruits, Etc.
Eddins Mgf. Co., Lumber and Building Material.
Standard Fertilizer Co., Fertilizers.

Where Votes May Be Cast

Ballot boxes will be found in the establishments of the merchants giving votes and at The Sun office. Votes sent by mail must be directed to the Voting Contest Department of The Sun, Gainesville, Florida.

Rules and Regulations

1. The contest is open to anyone living in Alachua county who is known by the conductors of the contest or vouched for by some reputable person, to them well known.

2. No employee, attachee or relative of the proprietors of the above-named firms are eligible to participate in this contest, and will participate in no manner.

3. In the event of a misunderstanding between candidates or others interested in this contest, such controversy may be referred to the conductors of contest, who alone are the persons qualified to render decisions.

4. In the event a candidate decides to withdraw from the race, such candidate will not be allowed to transfer votes to the credit of another candidate in the contest.

NEWS OF CITY AND COUNTY CONDENSED

MATTERS OF GENERAL INTEREST SECURED BY SUN REPORTERS.

What Has Happened and What Is Going to Happen—Personal and Social Items of the City.

Typewriters to rent. W. L. Denham.

Tomatoes 25c basket—thirty days. John Chesnut.

Choice country butter just arrived. Saunders & Earle.

Tomatoes and corn 7½c can—thirty days. John. Chesnut.

Best Florida onions 5c quart—thirty days. John Chesnut.

Five or 6 doses "666" will cure any case of Chills and Fever. Price 25c.

Marcus Endel of Jacksonville is meeting his numerous friends in the city.

Mr. and Mrs. C. H. Coles left yesterday for a short visit to Jacksonville.

Mrs. G. S. Means of McIntosh was in the city yesterday on a shopping expedition.

W. G. Sanders of Trenton, a merchant of that place, is among the visitors to the city.

When in doubt, just follow the crowd—it will lead you straight to the Brown House.

Six hundred bushels sweet potatoes going at only 40c bushel—thirty days' time. Jno. Chesnut.

Read the list of summer specials in the new ad. of the Baird Hardware Co., which appears in another column.

Mrs. S. H. Wienges has returned from a pleasant visit of several days to relatives at Fort George, near Jacksonville.

E. C. Chitty, senior member of the firm of Chitty & Sons, returned to his home at Micanopy yesterday after a brief visit to this city.

Miss Lottie Morse of Ocala arrived in the city yesterday and will visit her friend, Miss Nannie McMurray, for the next two days.

Mrs. C. A. Marks and little son arrived in the city yesterday to pay a short visit to the former's parents, Mr. and Mrs. T. B. Ellis, Sr.

Accidents will happen, but the best-regulated families keep Dr. Thomas Electric Oil for such emergencies. It subdues the pain and heals the hurts.

Important to June Brides going to housekeeping—Use Blue Ribbon vanilla and lemon, the Perfect Flavoring Extracts, and your success is a certainty.

Miss Allie Belle Spencer, who has been visiting in the city for the past few days as the guest of Miss Avice Walker, returned to her home at Welborn yesterday.

Judge Mason has started off briskly for June marriages by issuing two licenses yesterday—E. W. Donegan to Miss Gracie Geiger, and Robert B. Baker to Miss Katharine Johnson.

Misses Ena and Grace Macginnes were shopping in the city yesterday from their home at Hawthorn. They will spend the next few days at McIntosh on a visit to friends and relatives.

J. B. Neel of McIntosh was among the visitors here yesterday. He reports that all of the farmers have done well the past season and expect to realize a great deal more off their cantaloupe crop.

Experts Endorse a New Cooking Fat.

"Marion Harland," Mrs. Janet M. Hill, and Mrs. Sarah Tyson Rorer, are three cooking authorities whose names are familiar to almost every housewife. Each has her own distinctive methods of work, but it is interesting to note that on the all-important question of a cooking fat, they are unanimous in recommending COTTOLENE.

"Marion Harland" says of COTTOLENE: "It has given complete satisfaction." Mrs. Hill says: "Very satisfactory; glad to recommend it." Mrs. Rorer says: "A much more healthful product than lard."

With such authority behind it, every housekeeper will be safe in giving COTTOLENE at least a trial. It is a vegetable oil shortening, purer and more wholesome than lard—and it is cheaper, too, one-third less being required.

Boston squash 5c apiece—thirty days. John Chesnut.

Irish potatoes 5c quart, 35c peck—30 days' time. Jno. Chesnut.

Dr. J. M. Boring of Waldo was transacting business in the city yesterday.

Jelly glasses, 30c dozen; pint jars, 55c dozen; quarts, 60c—thirty days. John Chesnut.

Six country hams and eight shoulders on cold storage—not smoked. Saunders & Earle.

Capt. J. M. Dell, Sr., wife and little grandson, Maxey, left yesterday for a short visit to Worthington Springs.

Mrs. L. C. Lynch and son left yesterday for Ocala and will spend the next several days there visiting Mrs. Haisley.

We would like to have several copies of The Daily Sun of March 30, for which we will pay 5c a copy for the first five papers left at this office.

Miss Susie Morris, one of the "hello girls" of Ocala, arrived in the city yesterday on a visit to her friend, Miss Perry, of the East Florida Telephone Company.

Profs. P. H. Rolfs and M. T. Hochstrasser have gone to Tampa, where they will remain for the next several days attending the convention of the State orange growers.

Mrs. M. E. Macginnes of Hawthorn was among the visitors here yesterday. She was en route to McIntosh and will spend the next few days there visiting her daughter, Mrs. G. S. Means.

Lartigue & Weinberg, the enterprising real estate dealers, have a change of advertisement in today's Sun to which the attention of our readers is called. They will list your property without cost.

Rev. Joseph Boothby of Cedar Key was among the visitors here yesterday, being en route home. He has been visiting at Micanopy and Waldo, and at the latter place has an extensive building contract.

'Dolph Chamberlin, old good-natured 'Dolph of Tacoma, was circulating among his Gainesville friends yesterday. He not only always wears that "smile that won't come off," but the lucky season has made it greater.

Five-room cottage to rent on block adjoining square, formerly occupied by W. L. LeGrande; city water, electric lights, sewerage, bath, and all modern conveniences. Apply to Mrs. J. H. McCreary or Sun office.

Mrs. H. E. Townsend and Miss Clara Sharman returned to their home at Hawthorn yesterday after several days spent in this city. They came to attend the Sunday school convention of the Santa Fe Baptist Association.

Foley's Honey and Tar is especially recommended for chronic throat and lung troubles and many sufferers from bronchitis, asthma and consumption have found comfort and relief, by using Foley's Honey and Tar. J. W. McCollum & Co.

G. W. Marble of Newberry arrived in the city yesterday and will spend a short while meeting his numerous friends here. Until a few years ago he was a resident of Gainesville but decided that his health would be better by "living among the pine trees."

Miss Minnie Peterson of Ocala arrived in the city yesterday and will visit her friend, Miss Evans of the East Florida Telephone exchange. She is one of the competent clerks in the central office at Ocala and accompanied the large crowd up from that city yesterday.

W. P. Shettleworth, one of the largest melon growers of this part of Florida, was transacting business in the city yesterday. For a number years he conducted a very successful and profitable farm near Rochelle but removed to Evinston, where he is similarly engaged.

Everyone would be benefited by taking Foley's Orino Laxative for constipation, stomach and liver trouble, as it sweetens the stomach and breath, gently stimulates the liver and regulates the bowels and is much superior to pills and ordinary laxatives. Why not try Foley's Orino Laxative today? J. W. McCollum & Co.

YESTERDAY'S RESULTS IN SOUTH ATLANTIC

Tse scores in the South Atlantic League yesterday were as follows:

Charleston 3, Jacksonville 0.
Savannah 5, Columbia 0.
Augusta 6, Chattanooga 3.
Macon 6, Columbus 2.

If its worth more to someone else than to you—no matter what it is—a want ad. will be a good investment.

Twenty pounds coarse granulated sugar $1, or 18 pounds fine for $1—either on thirty days. John Chesnut.

We do not know of any other pill that is as good as DeWitt's Little Early Risers, the famous little liver pills—small, gentle, pleasant and sure pills with a reputation. Sold by all druggists.

R. L. Murray, who has been visiting in New York State for the past three weeks, returned to his home here yesterday and will at once resume his position at the White House, much to the delight of his friends among the traveling public.

Miss Nannie Lawson of Forsyth, Ga., who has been spending the past winter here with the family of W. H. Cassels, departed yesterday for her home. She made a large circle of friends who will be pleased to again welcome her to the city.

There are many imitations of DeWitt's Carbolized Witch Hazel Salve—DeWitt's is the original. Be sure you get DeWitt's Carbolized Witch Hazel Salve when you ask for it. It is good for cuts, burns and bruises, and is especially good for piles. Sold by all druggists.

Pine Grove Dairy! Oldest and best. Good cows, abundance of prairie grass and clear running water in our pasture. Cows tested by State Veterinarian. No trace of tuberculosis in herd. Screened milk-room, with large doors and windows to admit sunshine. Visit us and see how and by whom your milk is handled. "Pure Milk" our motto.

Mrs. C. J. Haigler of Haynesworth, Ala., who has been visiting her sister, Mrs. T. B. Ellis, Sr., left yesterday for Old Town and will spend the next few weeks in that part of the State before returning to her home. She was accompanied by Mesdames Callie Reddick and Chaires, both of whom have also been visiting at the Ellis home, forming a reunion of all of the sisters.
